

# 15<sup>th</sup> APCNDT 2017 SINGAPORE

## Asia Pacific Conference for Non-Destructive Testing

NDT for Enhanced Safety, Quality and Productivity

November 13 - 17, 2017

Marina Bay Sands Convention Centre, Singapore

**APCNDT** is considered the premier event for the Asia Pacific Federation for Non-Destructive Testing (APFNDT) and its member societies. Since it was initiated in 1976 APCNDT it has made considerable progress and provides a major international platform for highlighting accomplishments in the field of non-destructive testing. This year, the conference includes a wide-ranging scientific programme, workshops, local, regional and international meetings as well as a large exhibition.

### SCIENTIFIC PROGRAMME

Our Scientific Committee has reviewed and accepted over 250 technical submissions covering both traditional NDT technologies such as ultrasonic testing, radiography and visual testing, and latest generation technologies such as terahertz imaging, computed tomography and seismic inspection. The application of NDT in specialist areas such as structural health monitoring, additive manufacturing, materials characterisation and medicine will be covered as will the role and impact of various technologies including cloud computing, internet of things (IoT) and big data. A section of the programme will be dedicated to issues related to training and certification of NDT practitioners.

The programme will feature an opening address to be given by Dr Mike Farley, Chairman of ICNDT from 2008 to 2016, and daily keynote presentations by international renowned experts. Parallel technical sessions will run throughout the event from 13 November to 17 November afternoon.

#### OPENING ADDRESS

Dr Mike Farley

Dr B Venkatraman

Prof K  
Balasubramanian

Prof Younho Cho

Dr Brian  
Stephen Wong

Prof Gongtian Shen

#### KEYNOTE SPEAKERS

#### EXHIBITION

In parallel with the scientific programme the adjacent exhibition will feature more than 80 exhibitors showcasing the latest in NDT technologies, instruments and systems. Our exhibitors include equipment developers, service providers, research institutes and training agencies drawn from over 20 countries around the world.

Exhibition is open from 13 November to 16 November.
